

Eviti Connect[®] for Autoimmune Diseases

Reimburse high-quality, high-value
care with confidence

DATA SHEET

Providers don't want to delay patient care. Payers don't want to waste money on unwarranted, ineffective autoimmune care. Both want to improve clinical outcomes while ensuring healthcare dollars are spent wisely.

Eviti Connect for Autoimmune Diseases brings together advanced technology and clinical expertise to empower payers and providers to deliver timely, high-value care, streamline workflows, and improve outcomes for every patient.

EXPEDITING PATIENT CARE

NantHealth's Eviti Connect is a web-based healthcare payer solution that electronically connects health plans and practices for the authorization of treatment for autoimmune diseases. **It validates treatment plans in real time, reducing administrative burden, minimizing denials and appeals, and expediting care for patients.**

THE PREVALENCE AND COST OF TREATING AUTOIMMUNE DISEASES IS ON THE RISE.

50+ MILLION¹

people in the U.S. with an autoimmune disease

\$52+ BILLION²

expected annual US spend by 2027

KEY BENEFITS

- Empower your team with independent expertise and actionable insights.
- Streamline staff workflows, allowing focus on high-value tasks and patient relationships.
- Manage brand, biosimilar and generic use for best pricing.
- Support compliance and cost-effectiveness with configurable drug preferences and optimal site-of-care recommendations.
- Automate treatment plan validation to support timely, evidence-based care.

KEY FEATURES

- Intelligent, electronic authorizations minimize treatment delays and make care more cost-effective.
- Integrated medical and pharmacy policies provide transparent, real-time access to actionable information.
- Configurable workflows and drug preferences support both clinical and financial goals.

“
**Efficient, thorough, easy
to navigate and work with,
happy members and
providers.”**

– Eviti Connect Payer User

Eviti Connect is an intelligent treatment plan validation platform that combines advanced technology with clinical expertise, empowering providers and payers to confidently prescribe and reimburse high-quality, high-value care.
