1. Source: CAQH 2024 Index Report "E&B Checks to Break-Even" values use CAQH's 2024 Index Report averages for provider cost savings opportunity per E&B transaction to calculate offset of the NaviNet AllPayer subscription monthly base price. The range compares CAQH's manual-to-full electronic savings (\$6.57/txn) to partial-to-full electronic savings (\$2.46/txn) estimates. These calculations do not include the additional savings opportunity for each claim status or claim submission transaction (available via the NaviNet AllPayer Premium or Ultimate subscription plans).

2. NaviNet AllPayer offices conducted an average of 291 E&B checks each month in 2025, saving ~15 hours every month compared to the industry average for electronic eligibility and benefits transactions.
